

## **Why we are in touch with so many people**

By George Verwer

1. God has brought these people into our lives
2. Many are praying for us and we are praying for them
3. The Second Commandment is to 'love our neighbour as ourselves.' Communication and prayer demonstrate love
4. We have a passion to encourage people to press on for God
5. We have said to many that we would pray or keep in touch and we want to be people who 'keep our word'
6. Some of the people we are in touch with have been with us in the work and others still are
7. Some of the people give funds to the work and need to be thanked. Partnership must work both ways!
8. Some have come to Christ through our ministry and they need to hear from us
9. We believe God blesses and helps people when they get books, tapes or even leaflets that share important challenges and truths
10. It is a vital part of the Mission Mobilization Ministry  
I Timothy 2:2
